This Budget Letter (BL) advises state departments of the current penalty rates and the penalty interest factors per day for late payment penalties. The Government Code (GC) requires different penalty rates for late payments of:

- A. Invoices from small businesses or nonprofit organizations for goods/services.
- B. Invoices from other businesses for goods/services.
- C. Other amounts due.

The California Prompt Payment Act (Act), GC Section 927 et seq., requires state departments to automatically calculate and pay the appropriate late payment penalties if they fail to pay properly submitted, undisputed invoices on the date required by the contract. The Act applies to invoices for goods and/or services acquired by state departments. *Late payment penalties subject to this section accrue on amounts due during Budget impasse, with the exception of amounts due to nonprofit public benefit corporations.*

The GC Section 926.19 requires state departments to pay interest on other types of undisputed payments such as refunds, unless otherwise provided for in statute. Interest is due 31 days after the department notifies the person or the person notifies the department of the payment. *Late payment penalties subject to this section do not accrue during Budget impasse.*

Late payment penalties incurred after July 1, 2006 are subject to the following rates:

	Penalty Interest Rate Per Annum	Penalty Interest Factor Per Day
GC Section 927 et seq.		
A. Small businesses and nonprofit organizations (This rate <i>does not</i> change annually, GC 927.6a.)	91.25%	0.0025
B. Other businesses (This rate changes annually, GC 927.6b.)	4.873%	0.0001335
GC Section 926.19		
A. Undisputed payments (e.g., refunds) (This rate changes annually.)	2.873%	0.0000787

Late payment penalties incurred during fiscal year 2005-06 are subject to the following rates:

	Penalty Interest Rate Per Annum	Penalty Interest Factor Per Day
GC Section 927 et seq.		
Other businesses (This rate changes annually, GC 927.6b.)	3.256%	0.0000892
GC Section 926.19		
Undisputed payments (e.g., refunds) (This rate changes annually.)	1.256%	0.0000344

To arrive at the daily penalty, multiply the amount due by the applicable penalty interest factor per day, as shown. The daily penalty is then multiplied by the number of days the payment is late to calculate the total penalty amount.
